Stock Sold as High as 49 on the Samples of Very Fine Copper Ore Exchange This Morning.

VICTOR IN GOOD DEMAND. SILVER KING'S RICH ORE.

Tesora Advancing-May Day and Ajax Slightly Weaker-Tetro Remains Firm.

Business closed on the mining exchange this morning with the sale of \$8,000 shares for \$27,800.50. The market was a little quieter than usual, though prices showed no material change. Tesora was a little stronger, selling from 90 up to 911/2, while Boss Tweed was traded in as high as 49. An attempt was made to break Victor but it was only forced down to 391/2 from which figure it reacted to 40%. Uncle Sam advanced to \$1.90, while May Day declined to \$1.53, after opening at \$1.59. Ajax fell away to \$1,571/4 from its opening price of \$1.62. Daly released 500 at \$2.65, while Ingot dropped 1,000 at strike are all that the most sanguine at \$2.65. While looking at 40 while could desire. The ore is live looking Star Con. was active at 40, while Northern Light sold at 61/2. La Reine sold at 35. Martha Washington brought

RUSHMER.

VICTOR STRIKE

Exhibited From the New Find.

IS IMPORTANT.

Growing Better With Bepth-World-Wide Copper Combine-Carisa

Developments.

Several Salt Lake visitors to Tintic returned last evening with very encouraging reports from the Victor or Red Rose property near the Carisa which is controlled by Hon. A. W. Mc-Cune and associates, E. V. McCune and John Groesbeck also visited the property yesterday. They showed samples of ore from the new strike which were not nearly so/good as those exhibited te ay in Col. Bruback's office. For this cause the impression has gained strength that the heavy interests in the mine are- anxious to withhold know ledge of the true situation. However stuff, being primary in its character. It shows arsenical copper with azurite Northern light washington brought and malachite, and is connsidered by mining men to be a certain indication of the existence of a good chute of ore.

It was learned today that the company has about three feet of shipping ore in an upraise from the drift off the 250 level of the shaft. It is also rumored in the camp that ore has been found in the tunnel. The character of the ore is identical with the Carisa ore and the strike has caused much good feeling in the camp. It was predicted today by one of the best known mining men in the state that the stock would be selling around 75 cents a share in the

> SILVER KING DEVELOPMENTS. Newly Found Body of Oxidized Ore on

Lower Level Richer than Base Ore. The possibilities of the matchless Silver King, of Park City, are becoming greater with each week's development work. Some time ago Senator Kearns released the cheerful information that a lot of about 155 tons of sulphide ore had been shipped as a trial lot from had been shipped as a trial lot from the winze below the 1,200 level, which netted the company a little over \$33,000. This is put in the shade, however, by This is put in the shade, however, by the discovery of a body of oxidized ore underneath the base ore. In a conver-sation on the matter today Mr. Kearns said that the grade is better than the base ore owing to the presence of more gold. The base ore carries about \$27 gold per ton, but the newly discovered oxidized ore body shows a better average than that. The sliver values are not much different, running something over 200 ounces. The copper values are less than in the base ore. The total value of the metallic contents of the

ore is about \$225 per ton.
"The past experience of the King management is borne out in this latest disclosure, said the senator today, 'The ore continues to grow richer as greater depth is secured. We expect to make connections in a few days with the winze from the 1.200 and the crosscut from the 1,300 level."

WORLD-WIDE COPPER COMBINE Said to Have Been Effected Between Senator Clark and Others.

Denver, Colo., Aug. 22.-The News today says: Mining men of the city accept as true the reports that a world-wide cop-per combine has been formed, and competition in buying copper will no longer be known. The combine is said to have

be known. The combine is said to have been effected between the Amalgamat-ed, Calumet & Hecia, Senator Clark and the Rothschilds. Papers have been signed covering a long term of years. The consolidation of in-terests is said to be financed by the National City bank of New York, which is to be made the depository for the

consolidated concerns. UTAH SPUR SOLD. One Half Interest Goes to David Evans for \$10,000.

Provo, Aug. 22.—Jesse J. Knight and D. D. Houtz have sold a one-half interest in the Utah Spur mine at State line to David Evans for \$10,000, and extensive work may be looked for in developing that property. Mr. Knight, who is up from Stateline, informs the 'News" representative that the recent "News" representative that the recent strike of rich gold ore in the ground owned by the Big Fourteen Mining company is proving better than was at first reported and that the company is taking out some wonderfully rich ere. Sam A. King and Judge Burton re-turned yesterday from their visit to the mines of the International Copper Min-ing company in the La Sal country. Mr. King brought back some beautiful specimens of copper ore, and expresses himself highly pleased with the con-dition of the company's mines, which are being developed as rapidly as pos-sible.

DEVELOPMENTS AT CARISA. Winze Below 250 Level Shows no Change in Richness of the Ore.

Latest reports from the Carisa of Latest reports from the Carisa of Tintic show a very encouraging condition of affairs. The winze is now down upwards of 50 feet below, the 250 level and the rich ore shows no change of character. The new shaft is timbered to the 250 level, where a station is now being cut. The intention of the man agement is to continue sinking and thus increase their already large rethus increase their already large re-serves. Mr. Clarence McCornick said today that no attempt will be made to increase the regular shipments for the next few weeks. It was announced that the first dividend will be paid in Octo-ber. It will probably be 3 cents per share, which would be 24 per cent per annum on the present price of the

Comstock Assays.

Yesterday's assays of the ore taken from upraise in the south vein of the Comstock of Thayne's canyon show 29.8 per cent lead and 27 ounces silver, with \$1.60 gold per ton. Other assays of the quartz now being encountered in the face of the drift show \$4.40 gold and as high as 7 ounces silver per ton. Manager Dusseldorf says the trouble with Mfg. Optician.

Mfg. Optician.

73 W. First South St.

Mger Dusseldorf says the trouble with the California has nothing to do with the veins of either propert. Some time ago the California company allowed the Comstock people a mill and hoist site on a part of its ground, and

He STA been exposed in A West fissure is and I the length the Sw level. The West fissure is and I the length the Sw level. The Mest fissure is and I the length been exposured to the state of the state

the Comstock people agreed to allow the California the water flowing from their property provided a was not needed. Now it seems the California management is anxious to obtain half of the water being pumped from the Comstock. This the owners of the lat-ter will not consent to as it is believed it will be needed one day by the Com-

California Doing Well.

Manager Snyder, of the California, Manager Snyder, of the Camornia, said today that the new mill is giving a good account of itself. It is handling about 40 tons of ore per day, from which about 12 tons of concentrates are being obtained, valued at \$35 per ton. At this rate, the company is earning about \$400 per day or \$12,000 per month. Regarding the report that trouble may arise with the Comstock, Mr. Snyder said that it could not, as the California vein runs southwesterly, while the Comstock vein is being folowed in a northwesterly direction. In ference to the size of the pay streak, Mr. Snyder says it will average 4 feet wide and will run about 30 ounces sliver and 60 per cent. lead. The crosscut that is now being run to the vein from the lower tunnel is not expected to reach it for 4 or 5 weeks, owing to the fact that it has been run slightly out

Dalton & Lark Tunnel.

W D Murphy who is in charge of the work of driving in the big drain tunnel of the Dalton and Lark, reports the tunnel in 1,070 feet. A force of 14 ien are at work and three shifts are usily employed in driving the tunnel ahead at the rate of 6 to 7 feet per day by hand drills. A flow of about ten gallons per day has been encounter-ed with some small streaks of low

Active at the St. Joe.

Supt. R. E. Rex, of the St. Joe Mining company came in from South Bingham today. He reports the big drain tunnel in about 725 feet. Two shifts are at work and the work is proceeding at the rate of eight feet per day. Some difficulty is experienced in keeping men at work owing to the fact that the locality is quiet. The machinery is working smoothly and Mr.Rex looks for mportant developments shortly the Burlington vein is expected to be \$19 per ton has already been exposed in the tunnel where nothing was looked

New Oil Company.

A new oil company is shortly to be organized by a number of well known Salt Lake men who have located over 40,000 acres of land in Emery county. The property is owned principally by D. J. Williams, Dr. Elias S. Wright, Dr. Stauffer, the Cannon estate and Mose Davis of Provo. The locations are con-tiguous to the oil deposits of Uintah county and are very favorably located.

MINING NOTES.

The Ophir Hill had 7 cars of concentrates on the market today.

A car of ore was on the market today from Carruthers of Welser, Ida. A car of concentrates were on the

The Taylor-Brunton sampler reported a car of ore from Bingham, 1 from Idaho and 7 from Stockton today.

market today from the Tiewaukee of

Two lots of ore are at the Sampler from the Bonanza and Lone Pine properties 14 American Fork \*anyon.

Col. Bruback has just let a contract for 100 feet of shoft work at the Silver Bow of Tintic. The shaft is now down 335 feet. Engineer T. P. Rigney has returned from surveying the Annie Laurie group of eight claims, lying about two miles

due north from Eureka Jake Trainer, of this city, has gone to Baker City, Ore. to act as assayer and bookkeeper at the Virtue Consolidated company's mines now being managed

by Arthur Buckbee formerly of Tintic. Col. Wall, who has returned from Tintic, says the Tesora mill is turning out 40 tons of concentrates per day. The saving is said to be very fine. The col-onel says the Victor strike has caused much talk in the camp.

The last car of ore from the Utah of Fish Springs assayed 59.9 per cent lead and 113 ounces silver. A drift is being run from the 770 jevel, just above the water line. Some very rich ore is being

E. V. McCune, who returned last night from the Victor Mining company's property in Tintic, reports the management taking out a small quantity of ore similar to that of the Carisa adjoining. He considers the prospects very good for the discovery of a large body of ore.

Articles of incoroporation of the Pot Articles of incoroporation of the Potter Graystone company have been filed with the county clerk. The capital stock is \$300,000, in 3,000 shares of the par value of \$100 each. G. R. Potter is president of the company; C. C. Deyvice president; E. D. R. Thompson, secretary; Josiah Barnett, treasurer, who, with W. P. Lynn and D. C. Dunbar, form the directorate. The company owns the Emma's park greystone quarry placer mining claim and the Willow Creek graystone quarry placer mining claim, in Carbon and Wassatch mining claim, in Carbon and Wasatch

## SLUCCISHLY IRRECULAR.

New York, Aug. 22.-The tone of the

stock market was sluggishly irregular

That Was the Tone of the Stock Market at Its Opening.

at the opening. Stocks which have shown most recent atrength continued upwards, but the western grain-carry-ing roads and the Pacifics showed a slightly reactionary tendency. United States Steel stocks gained a small fraction. Changes were not important in any case. A sharp rise in a few important stocks caused a general bidding up elsewhere and many important gains had been made by 11 o'clock. These included 3 in Lackawanna, 2% in Delaware & Hudson, 2½ in Great Nor-thern preferred and 1@1½ in St. Paul, Kansas & Texas preferred, B. & O. Erie first preferred, Reading second preferred, and other less prominent The rise in prices invited realizing by the room traders and the market sold off. Lackawanna lost 2 points and St. Paul and Delaware& Hudson a point. Prices later hardened when the Eries rose strongly and Steel was pushed above 43. Bonds were firm.

Prices of important stocks were al-most immovable during the hour after mid day. Union Pacific rose to near par, causing a slight hardening elsewhere in sympathy.

> WOOL MARKETS. BOSTON.

Boston, Aug. 21.—The American Wool and Cotton Reporter will say tomor-row: While the demand for wool during the past week has been quieter, there has, nevertheless, been more than an average business transacted and prices in all lines have been fully maintained. demand is widely distributed and the demand is widely distributed and it has practically all been for consump-tion, there bins no speculative tenden-cy in sight. There is a firm undertone to the market and consumers who attempt to secure wools at any conces-sions from present prices do not suc-ceed in securing wool. The rank and file of them are contented, however, to pay current rates. There is no dispo-sition on the part of holders of wool force the market.

The bulk of the territory wool has been purchased outright and is in strong hands. The whole situation, as regards both wool and goods, looks ound. The sales for the week amount o 4,467,000 pounds domestic and 520, 600 pounds foreign, making a total of ,192,000 pounds, against a total of 12,-935,000 pounds for the previous week and a total of 3,620,000 for the corres-
